Our services can be terminated immediately without notice if you violate our terms and conditions, which will result in your account being disabled. If you wish to terminate your account, simply stop using our services. Provisions that should remain valid after termination include ownership, warranty disclaimers, indemnity, and liability limitations. No agency, partnership, or employment is formed by these terms, and you do not have any authority to bind us in any way. Failure to exercise a right does not waive further rights hereunder. We are not liable for failure to perform obligations where such failure results from causes beyond our control. If a provision of the terms is found to be unenforceable or invalid, it will be limited or eliminated as necessary so that the terms remain in full effect. The terms are non-assignable and transferable without our prior written consent, except with our permission. We can assign or delegate our rights and obligations without your consent. These terms shall be governed by California law and any disputes will be resolved through arbitration with a JAMS arbitrator chosen jointly by the parties, or separately if needed. The arbitration proceeding will be conducted in California, using the English language and JAMS rules. The prevailing party is entitled to recover costs and attorneys' fees in any action or proceeding to enforce rights under the Terms of Use. Both parties agree that the Terms of Use is the complete understanding of their mutual agreement, supersedes all previous agreements, communications, and understandings, and requires written modifications signed by both parties, except as otherwise stated. To determine your ring size, consider using various DIY methods. One approach involves measuring the length of a piece of string or paper wrapped snugly around your finger, marking where it overlaps, and then comparing this measurement to a ring size chart. Alternatively, you can use a ring that fits well on the intended finger and measure its inner diameter in millimeters, finding the corresponding size on an online chart. For more accurate measurements, consider consulting with a professional jeweler or using multiple methods and comparing results. It's also essential to note the size of the knuckle compared to the base of the finger when measuring. Average ring sizes for women range between 6 and 7, while men typically fall within sizes 9 and 10. To find your girlfriend's ring size discreetly, try borrowing one of her rings and getting it sized by a jeweler or comparing it to a printable guide. Alternatively, enlist the help of friends or family members who may have knowledge about her size. Another approach is to use her other jewelry as a guide, even if they are not worn on the same finger. If you're struggling to figure out your partner's ring size without prying, here are some sneaky ways to get an idea: measure her fingers against yours while holding hands for a rough estimate, casually bring up the topic to see if she lets something slip, or take note of any clues in her accessories. As a last resort, you can always guess and plan for resizing, but this might not be the most accurate method. For a more precise measurement, try using a ring sizer tool or app on one of her rings - just remember to be discreet about it!
