INTRODUCTION

The USC Upstate College of Education, Human Performance, and Health (CoEHPH) Field Experiences Handbook includes policies and procedures underlying and governing all field experiences related to the Education Professional Program of the University of South Carolina Upstate (USC Upstate). In addition, this handbook serves as a reference for university and public- school personnel as well as teacher candidates involved in field experiences. This handbook requires frequent revision as the nature of field experiences is modified in response to the ideas and concerns of those engaged in the process. It is the responsibility of the Director of Field Experiences to review this handbook on a bi-annual basis and to make appropriate revisions.

Selection of Public Schools

An effort is made by the CoEHPH to arrange field experiences in public schools where USC Upstate teacher candidates can benefit from teaching experiences and where public-school faculty and administrators work cooperatively with university faculty and teacher candidates. All public schools used for field experiences must be accredited by AdvanED.

Personnel Involved in Field Experiences

To clarify terminology used in the chapter, note the following definitions:

- Administrative Assistant for Field Experiences – The designated staff member at USC Upstate who is responsible for handling documents for field experiences and monitoring clearance.
- Cooperating Administrator - One who functions as an administrator in a school district and assumes the responsibility for coordinating the presence of teacher candidates in that particular school district.
- Cooperating Teacher - One who teaches in a public school and undertakes the additional responsibility of supervising one or two teacher candidates during a semester.
- LiveText Coordinator – The faculty member who answers LiveText questions.

- Director of Field Experiences - The designated faculty member at USC Upstate who oversees field placements and serves as a primary liaison between the University and public school districts.
- Dean of the CoEHPH - The individual responsible for recommending to the State Department of Education those individuals who have successfully completed the teacher education program at USC Upstate.
- Field Experience Instructor - Faculty member responsible for observing the teacher candidate and ensuring the completion of the required hours prior to student teaching.
- Seminar (Pull Back) Instructor - The individual responsible for evaluating the Teacher Candidates' ADEPT Exit Portfolio and Teacher Work Sample (TWS).
- Teacher Candidate - A university student currently enrolled in a CoEHPH program or individual course participating in a field experience/directed student teaching.
- University Supervisor - A member (including faculty/adjunct and affiliate positions) from USC Upstate who serves as a liaison between the University and public school and is responsible for supervising a teacher candidate and communicating/collaborating with the cooperating teacher during directed student teaching.

Qualifications of Cooperating Teachers

Teachers who serve as cooperating teachers must:

- Hold a valid continuing professional certificate in their area of supervision.
- Have successfully taught for at least two years at the grade level and/or subject area for which supervision is assigned.
- Have completed a CoEHPH Orientation for cooperating teachers.
- Have been recommended annually, based on the aforementioned criteria, by the school administrator for service as a cooperating teacher.
- Be willing and able to mentor teacher candidates.

Qualifications of University Supervisors

USC Upstate faculty members and affiliates who serve as cooperating teachers must:

- Have strong classroom experience within P-12 schools (5 years minimum)
- Hold a valid continuing professional certificate in their area of supervision
- Be willing to travel to various school assignments
- Hold a valid driver's license and have a reliable mode of transportation
- Be available to students and the University during the student placement period
- Possess the ability to use technology in the performance of responsibilities
- Maintain SC 4.0 Rubric certification (if not already, must be certified by the start of the placement)

FIELD EXPERIENCES 1 and 2

Field experience courses are intended to provide USC Upstate teacher candidates with firsthand classroom experiences. These experiences allow teacher candidates to connect theory and practices discussed throughout their teacher preparation coursework. Field experiences also serve as preparation for Student Teaching and the teacher candidates' teaching career. Field experiences include: planning, teaching, assessing, managing the classroom, and professionalism, while utilizing a variety of student groupings. Performance in each field experience course is evaluated by the field experience course instructor. Note: Field experiences for teacher candidates in P-12 programs (Art, Physical Education, and Special Education) do not always follow the same order and require dual placements. The course instructor communicates with the Director of Field Experiences regarding which students should be included in placements for each semester.

General Competencies Developed in Field Experience Courses

Field experiences required of USC Upstate teacher candidates are sequential and interdependent with course work. Though specific requirements may vary by course, the following competencies are fostered by field experiences:

The teacher candidate will:

- Describe the nature of schools and schooling as determined through observation.
- Describe characteristics of PreK-12 students as determined through observation.
- Participate in diverse settings including those with different socio-economic status, cultural, and linguistic backgrounds.
- Identify the various educational resources available to exceptional students.

- Demonstrate skill at recording and analyzing data gathered through observation and other informal assessment measures.
- Collect and analyze pre/post test data to inform teaching practices.
- Engage in reflective thinking about teaching.
- Plan and implement lessons under the direction of the cooperating teacher.

Documentation and Evaluation

All field experiences (including courses leading up to Student Teaching and Student Teaching) will be documented, and appropriate evaluation forms will be completed and saved in the teacher candidate's LiveText file. Teacher candidates are required to complete a minimum of 100 hours of classroom experience before moving into Student Teaching. In many cases, depending on course requirements, students will have more than 100 hours. All LiveText questions/issues should be communicated to the LiveText Coordinator.

Conflicts of Interest

Teacher candidates cannot be placed in any school setting where a conflict of interest may occur. Such conflicts of interest include (but are not limited to):

- Have attended the school within 10 years.
- Have family members employed or attending the school.

In an effort to maintain balance in the cooperating teacher/student teacher/university supervisor relationship, gift-giving is prohibited during the evaluation period of a student teacher's placement. Though it is not required or to be expected, there may be instances when a person would like to offer a small parting gift or a gift of thanks at the end of the field experience (once all evaluations have been completed). In such cases, a gift is permissible but not to exceed the value of \$50. If you have questions regarding this policy, contact the Director of Field Experiences for clarification.

STUDENT TEACHING

Student Teaching is a field experience that serves as the capstone learning experience in the teacher education program. Teacher candidates are expected to behave in a professional manner at all times throughout the placement period.

The Student Teaching experience is designed to:

- Give the teacher candidate, under the guidance of a competent professional, first-hand experiences with PreK-12 students.
- Allow the teacher candidate to apply theoretical content and professional knowledge acquired during coursework at the University.
- Provide cooperating teachers who model and exemplify good pedagogy.
- Allow the teacher candidate to practice and develop teaching skills including planning, implementing, and evaluating instruction.

The length of the USC Upstate Student Teaching experience is sixty-five days.

Single Placement

Teacher candidates with majors in Early Childhood, Elementary, Middle, and Secondary programs have one placement for the entire semester. They are required to take on a full teaching load, gradually assuming full responsibility for the entire day during the first 3 weeks and gradually releasing full responsibility back to the cooperating teacher during the last 3 weeks of the student teaching experience.

Dual Placement

Teacher candidates with majors in Art, Physical Education, and Special Education programs will have two placements of approximately seven weeks each (typically one in an elementary school) and one in a middle or secondary school. Having a dual placement means teacher candidates assume full responsibility for the entire day during the second week of school and gradually

release full responsibility during the second to last week of student teaching.

All teacher candidates are in a 15-credit hour block that includes 12 credit hours for student teaching with an additional 3 credit hour seminar course during student teaching. To provide teacher candidates with diverse classroom experiences, teacher candidates are prohibited from student teaching in any school where a conflict of interest may exist (see “Conflict of Interest”).

Roles and Responsibilities of Cooperating Administrators

The cooperating administrator is responsible for coordinating the placement of teacher candidates and monitoring their progress. The cooperating administrator also works with the university supervisor. Specific responsibilities of the cooperating administrator include:

- Conduct an orientation meeting with teacher candidates during which they are informed of school policies and procedures and are given a tour of the building.
- Introduce teacher candidates to the entire faculty during an appropriate faculty meeting.
- Conduct a minimum of two conferences with the teacher candidates concerning their progress during the placement.
- Arrange for teacher candidates to observe in a minimum of 2 classrooms other than those to which they are assigned during the last 1-2 weeks of their placements.

Roles and Responsibilities of Cooperating Teachers

Effective cooperating teachers provide positive role models for teacher candidates while they encourage teacher candidates to develop an individual style of teaching. Communication with the teacher candidate is vital. Guidance and feedback concerning planning, lesson implementation, assessment, and classroom management should be provided to the teacher candidate on a daily basis. As skills develop, the teacher candidate should assume increasing responsibility for all parts of the instructional process. Specific responsibilities of the cooperating teacher include:

- Attend the cooperating teacher orientation session provided by the University prior to the beginning of the semester, complete the Expanded ADEPT 4.0 online training modules, and submit the online Background and Experience Form.

- Prepare/introduce students, faculty, and staff in the school for the arrival of the teacher candidate.
- Acquaint the teacher candidate with the availability and location of student records, instructional materials, and instructional technology.
- Provide the teacher candidate with a desk or table for professional use.
- Familiarize the teacher candidate with schedules and other routines.
- Guide the teacher candidate through the creation of lesson plans, based on content and grade level standards and objectives.
- Assist the teacher candidate in the development of a unit plan.
- Provide the teacher candidate with opportunities to observe in various classroom settings.
- In collaboration with the teacher candidate, prepare a long-range plan for the gradual assumption and release of classroom teaching responsibilities.
- Approve unit plans and daily/weekly lesson plans prepared by the teacher candidate.
- Provide regular and continuous feedback to the teacher candidate concerning all aspects of the instructional process and specific suggestions concerning management techniques.
- Involve the teacher candidate in all responsibilities related to teaching, such as bus duty, lunchroom and playground duty, faculty meetings, parent conferences, PTA meetings, in-service activities, and extracurricular activities (except those for which extra compensation is received).
- Complete two Expanded ADEPT Formative Observations and take an active part in the Consensus Evaluation.
- Communicate with the university supervisor on a regular basis concerning the progress of the teacher candidate.
- Participate in a consensus meeting with the university supervisor at the end of the placement.
- Complete assigned reports and submit into LiveText by the designated due date.
- Complete and submit the Teacher Education Program Evaluation Survey of the USC Upstate teacher education program when solicited.

Roles and Responsibilities of University Supervisors

The university supervisor provides the primary link between the public school and the CoEHPH. The university supervisor assumes direct responsibility for the teacher candidate and works closely with the cooperating teacher and school administrators to ensure the progress and well-being of the students impacted by the teacher candidate. Duties and responsibilities of the university supervisor include:

- Serve as a liaison between the University and public school. Alert the Director of Field Experiences regarding any concerns as they occur.
- Attend meetings required by the Director of Field Experiences and/or USC Upstate.
- Visit the teacher candidate a minimum of three times during each double placement, or six times during a single placement, making at least four teaching observations with at least two follow-up conferences.
- Conduct conferences, as needed, with the teacher candidate and provide both constructive criticism and positive reinforcement.
- Communicate regularly with the cooperating teacher concerning the progress of the teacher candidate.
- Conduct a three-way conference at the beginning of each placement to meet the cooperating teacher and teacher candidate.
- Complete at least two Expanded ADEPT Formative evaluations
- Complete two Expanded ADEPT 4.0 evaluations (including pre- conference and post-conference)
- Complete the Summative Evaluation/Addendum, when applicable, in LiveText.
- Conduct a consensus meeting and complete the NIET Consensus Rubric in LiveText.
- Enter all evaluations into LiveText according to the due dates assigned there.
- Follow the removal procedure, when necessary, in cooperation with the Director of Field Experiences.
- Verify and collect the 65-day verification form and the Student Teaching Observation Schedule with all required signatures and submit to the Director of Field Experiences by the designated due date, along with a rating of the teacher candidate as satisfactory (S) or unsatisfactory (U).

Roles and Responsibilities of Teacher Candidates

For the teacher candidate, the Student Teaching experience provides an opportunity to synthesize and apply knowledge and skills accumulated during college coursework. Teacher candidates are expected to be positive and cooperative and to understand that the welfare of public school students is their primary responsibility. The responsibilities of the teacher candidate include:

- Provide meaningful learning experiences on a daily basis; through implementing well-planned lesson and unit plans approved by the cooperating teacher.
- Submit weekly lesson plans to the University Supervisor and cooperating teacher for the following week by Saturday at noon each week, unless otherwise specified by the university supervisor.
- Write a weekly reflection and submit it to the university supervisor along with weekly lesson plans (see Appendix A as an example) each Saturday by noon, unless otherwise specified by the university supervisor.
- Actively seek suggestions and advice from the cooperating teacher and be receptive to constructive criticism
- Work cooperatively with teachers, students, families, and administrators, and with the university supervisor.
- Develop, with the cooperating teacher, long-range plans for the gradual assumption of all teaching responsibilities in the classroom.
- Assume total teaching responsibilities consistent with the timeline provided in this handbook.
- Adhere to the daily schedule of the cooperating teacher including such activities as bus duty, lunchroom and playground duty, faculty meetings, parent conferences, PTA meetings, in-service activities, and extracurricular activities (this does not include activities for which the cooperating teacher receives extra compensation such as coaching).
- Adhere to the calendar of the assigned school district as opposed to the academic calendar of the University.
- Notify the cooperating teacher, the receptionist of their school, and the university supervisor in case of absence or in case of leaving school early or arriving at school late due to an emergency.

- Maintain the role of a teacher candidate, only acting as a substitute teacher when appropriate (see Appendix B).
- Implement discipline which demonstrates respect for the child - NEVER engaging in or serving as a witness to corporal punishment.
- Behave, speak, and dress in a professional manner throughout your placement.
- Communicate with teachers, students, administrators, families, and university personnel in a professional manner at all times.
- Recognize that neither employment nor additional course work should interfere with the responsibilities associated with Student Teaching.
- Attend co-requisite courses and the Student Teaching Orientation session.
- Refrain from using technology apart from placement-related tasks during school hours (Netflix, social media, phone usage including texting, etc.)
- Refrain from reaching out to any student via social media for any reason at any time
- Refrain from taking photos or videos of students and/or posting them on any social media platform.
- Complete the Exit Assessment and Teacher Work Sample according to CoEHPH requirements.
- Complete the Standards of Professional Conduct and Dispositions Self-assessment prior to the Pinning Ceremony.
- Complete the Senior Survey prior to the end of the semester.
- Complete all student teaching requirements prior to the Pinning Ceremony
- Complete Steps for Certification (see Appendix D).

Schedule for Student Teaching

Arrangements for the teacher candidate to gradually assume instructional responsibilities (up to the first 3 weeks) and then gradually relinquish instructional responsibilities (during the last 3 weeks) in the classroom must be determined on an individual basis between the cooperating teacher, university supervisor, and the teacher candidate. It is desirable that the teacher candidate have as much experience in all standards of teaching as possible.

In an ideal situation, the teacher candidate will gradually assume responsibility for classroom instruction. This allows the teacher candidate time to gain some mastery over one content area or one level of instruction before adding a second area of responsibility. Gradual assumption of teaching responsibilities (start date on) also makes the transition from cooperating teacher to teacher candidate smoother for students in the classroom. A similar approach is desirable as the teacher candidate returns teaching responsibilities to the cooperating teacher (end date back).

This general example of a schedule applies for all certification areas.

Week 1: Teacher candidates become oriented to the new classroom, observe both teacher and students, learn students' names, assume small housekeeping chores, and assist with individual students and/or small groups. This is also the time for the cooperating teacher and the teacher candidate to make long-range plans for the transitioning of teaching responsibilities.

Week 2: Teacher candidates begin preparing and teaching one, two, or three different subjects (or classes). For example, an elementary teacher candidate might assume responsibility for teaching science and math each day and toward the end of the second week begin planning for teaching social studies and ELA.

Remainder of the Weeks: Subjects or classes are gradually added so that by the third week the teacher candidate has full responsibility for the classroom. The cooperating teacher will gradually reassume responsibility for instruction during the last three weeks of the student teaching experience.

During the last week of a teacher candidate's placement, it is desirable for the teacher candidate to observe in other classrooms in the building. This should include different content areas, and grade levels as well as special education and related arts rooms.

USC Upstate ADEPT Observation and Assessment Schedule

This is a *suggested* framework for the ADEPT observations. Some flexibility may be necessary in order to accommodate individual and school schedules.

SINGLE PLACEMENT (Early Childhood, Elementary, Middle, Secondary)

Week 1	Introduction, Planning Visit
Week 3	University Supervisor's ADEPT Formative Assessment #1
Week 5	Cooperating Teacher's First Formative Assessment
Week 6	University Supervisor's Expanded ADEPT 4.0 Assessment #1
Week 9	Cooperating Teacher's Second Formative Assessment
Week 10	University Supervisor's ADEPT Formative Assessment #2
Week 12	University Supervisor's Expanded ADEPT 4.0 Assessment #2
Week 14	University Supervisor's ADEPT Summary Assessment from three-way conference; Cooperating Teacher's USC Upstate Program Evaluation

DUAL PLACEMENT (Physical Education, Special Education, Art)

PLACEMENT ONE

Week 1	Introduction, Planning Visit
Week 2	University Supervisor's ADEPT Formative Assessment Week
Week 3	Cooperating Teacher's Formative Evaluation
Week 4/5	University Supervisor's Expanded ADEPT 4.0 Observation
Week 7	University Supervisor's ADEPT Summary Assessment from three-way conference; Cooperating Teacher's USC Upstate Program Evaluation

PLACEMENT TWO

Week 1	Introduction, Planning Visit
Week 2	University Supervisor's ADEPT Formative Assessment
Week 3	Cooperating Teacher's Formative Evaluation
Week 4/5	University Supervisor's Expanded ADEPT 4.0 Assessment
Week 7	University Supervisor's ADEPT Summary Assessment from three-way conference; Cooperating Teacher's USC Upstate Program Evaluation

Absence of a Cooperating Teacher

Should a cooperating teacher be absent from the classroom, the school district will provide a certified substitute to work with the teacher candidate. For a short-term absence, if agreed upon by the cooperating administrator and the school principal, the teacher candidate may be eligible to serve as the substitute teacher (see Appendix B).

Absence of the Teacher Candidate

Teacher candidates are expected to be present in the classroom each day of the Student Teaching experience. Attendance at a professional conference may be allowed **if approved in advance**. *If a teacher candidate must be absent, three individuals must be notified before the beginning of the school day and preferably the day before the absence--the cooperating teacher, the university supervisor, and the receptionist of their assigned school.* If a personal emergency should occur which requires the teacher candidate to leave the school during a school day, the cooperating teacher and the university supervisor must be notified. In the case of an absence, individual arrangements must be made for the teacher candidate to make-up days/hours missed. All missed days/hours, unless approved by the Director of Field Experiences (See Appendix G), must be made up at the end of student teaching. This includes leaving early and/or arriving late at your assigned school.

STUDENT TEACHING EVALUATION

At the conclusion of the experience, teacher candidates will receive a grade of Satisfactory (S) or Unsatisfactory (U). Determination of the final grade is the responsibility of the University Supervisor and Director of Field Experiences and School Partnerships; however, careful consideration will be given to the evaluations conducted by cooperating teachers.

Informal Evaluation

Continuous informal (formative) evaluation makes a significant difference in the performance of

the teacher candidate. Every day, either at the conclusion of the school day or during a planning period, the teacher candidate and the cooperating teacher should meet together to critique lessons taught by the teacher candidate and to consider alternatives for improvement. The cooperating teacher is encouraged to be candid but supportive. It is important not to lose sight of the fact that Student Teaching is a learning experience, and these students are not yet employed as professionals.

Formal Evaluations Required by USC Upstate

Two types of formal evaluations are to be completed by the cooperating teacher and the university supervisor are required during each Student Teaching placement. The first of these is a formative evaluation incorporating specific competencies designated by the CoEHPH. A copy of this form is to be completed by the cooperating teacher and University Supervisor at specified points during each placement and shared with the teacher candidate.

Summative evaluations are to be completed by both the cooperating teacher and the university supervisor at the conclusion of each placement, and a consensus meeting should be held between the university supervisor and cooperating teacher. Results are to be discussed with the teacher candidate by the university supervisor. Each of these exchanges should be scheduled at a time and place when students are not present. Some university supervisors require that teacher candidates complete both formative and summative self-evaluations. Copies of all formal evaluations become part of the teacher candidate's permanent file in the USC Upstate CoEHPH.

In addition to the two formal evaluations stated above, university supervisors are to complete two Expanded ADEPT 4.0 evaluations. These evaluations will include a pre-conference, observation, and post-conference. The pre and post-conferences will be conducted between the university supervisor and the teacher candidate. After the post-conference, the university supervisor will complete the NIET rubric (see Appendix C) and provide the results to the teacher candidate orally and through LiveText. Documentation from the pre-conference and post-conference will also be submitted through LiveText.

Evaluation of Program and Personnel

In order to monitor the effectiveness of the USC Upstate teacher education program, a number of different evaluation instruments are employed. These solicit the feedback of all who are involved in the Student Teaching process. At the end of the semester, teacher candidates complete two evaluation forms, one regarding their cooperating teacher and one regarding their university supervisor.

The cooperating teacher completes two evaluation forms at the conclusion of the Student Teaching experience. The first evaluates the USC Upstate teacher education program based on the performance of the teacher candidate. The second evaluates the performance of the university supervisor.

The university supervisor completes and submits an evaluation form based on the performance of the cooperating teacher. All of the data collected electronically is reviewed by the Director Field Experiences and the Director of Accreditation, Assessment, and Research who summarize and use the information gathered for reports to various accrediting agencies.

The information gathered from these evaluations form the basis for changes made in the teacher education program in general and in the Student Teaching portion of that program in particular. Curriculum changes resulting from comments on forms completed by cooperating teachers and teacher candidates include the addition of a course on classroom management and a course on testing and measurement. Revision of the program is a continuous process as different needs become apparent. In making revisions, input is sought from all involved in the Student Teaching program: university supervisors, cooperating teachers, cooperating administrators, district office personnel and teacher candidates.

REMOVAL OF A TEACHER CANDIDATE FROM A FIELD EXPERIENCE

The College of Education, Human Performance, and Health will enforce the following policy concerning the removal of a teacher candidate. This policy will cover removal prior to the end of the semester. The criteria for evaluating teacher candidates are based on the goals and objectives agreed upon by the faculty and published in this manual. These goals and objectives are incorporated in the unit's formative and summative evaluation forms. Judgments concerning the effectiveness of teacher candidates will be based on these criteria. Cause for early removal from a field experience will be based on deficiencies in any of the following areas:

- Effective teaching (instruction and planning)
- Classroom management (instruction and behavior)
- Content knowledge
- Oral and written communication skills
- Ethical and professional behavior (including health problems that jeopardize others within the normal confines of the classroom)

Evidence for less than satisfactory performance may be documented by, but not limited to, any of the following: USC Upstate ADEPT 4.0 Evaluation Forms and/or formal three-way conferences.

I. Process

The following procedures and practices will be followed when a student teacher has been identified as performing below a satisfactory level.

1. The student teacher must be observed and evaluated by at least two USC Upstate CoEHPH faculty members.
2. The student teacher must be observed and evaluated by the cooperating teacher and, when possible, an additional classroom teacher or a school administrator.
3. The student teacher will be observed by a university faculty member at least twice a week until performance reaches a satisfactory level, or a decision is made to remove the student teacher.
4. A copy of all formative and summative evaluations, with recommendations for change, will be provided to the student teacher and the cooperating teacher.

5. At least one three-way conference will be conducted with the student teacher, cooperating teacher, and university supervisor. Documentation should include suggestions for improvement. The conference should be conducted at least one week prior to withdrawal of the student teacher.
6. The student teacher must be notified in writing that removal from student teaching will occur unless significant improvement is made in teaching performance.
7. Ineffectiveness in one area might be serious enough to cause removal even though improvement occurs in other areas.
8. An Improvement Plan may be required at any point in the process, which will be determined by the Director of Field Experiences.

A student teacher may be removed immediately upon the request from the cooperating administrator (or the principal acting as an agent of that district), in which case, the processes above may or may not have been completed. Immediate removal will result in dismissal from the professional program. Readmission to the professional program is governed by the petition process and should be directed to the Scholastic Standing and Petitions Committee.

A conference involving the teacher candidate and the Director of Field Experiences (which may also include the Dean, Associate Dean, or Department Chair) will be conducted upon removal of the teacher candidate from placement. After removal the following grades may be assigned:

1. Removal from the field experience with the assignment of a grade of “U.”
2. Removal from field experience with the assignment of a grade of “I.”
 - i. A grade of “I” (incomplete) will result in the teacher candidate repeating the entire semester of the field experience. A contract will be developed to ensure identified deficiencies will be addressed.

II. Student Appeal

If the teacher candidate chooses to petition removal from a field experience, the teacher candidate should refer to the Removal of a Teacher Candidate from Field Experience Petition Process located in the CoEHPH student handbook.

INTERNSHIP CERTIFICATE REQUIREMENTS

The internship certificate is an alternative pathway to achieving a teaching certificate that does not require student teaching (see Appendix F). “The Internship certificate is available to an eligible teacher candidate* who is currently enrolled in a State Board of Education-approved educator preparation program in South Carolina and has been approved by the college or university for participation in an internship program. The candidate must have completed all academic and bachelor’s degree requirements, with the exception of the teaching internship, as well as all certification examination requirements. The certificate will be issued for up to one year and must be requested by the employing school district. Upon completion of the teaching internship and verification by the college or university that all approved program requirements have been met, the Internship certificate will be converted to an Initial certificate. The Internship certificate request must be initiated by the school district and partnering institution of higher education. The candidate must have a complete student teaching application with fee, cleared background reports, and test scores on file.” (The South Carolina Department of Education, 2018)

The internal application for an Internship must be received by CoEHPH before the beginning of student teaching (Spring Placement: November 1st ; Fall Placement: May 1st). Check the Internship eligibility requirements before applying.

*An eligible teacher candidate is defined at the University of South Carolina Upstate as having:

- Passed all Praxis & PLT exams required for certification (exams must’ve been taken by May 1st and passing scores received no later than June 15th)
- A GPA of 3.5 or greater from Program of Study (with exception to the Reach Up! pathway)
- Exemplary or Acceptable ratings in all dispositions assessments conducted in field experiences
- The recommendation of the Department Chair in consultation with program faculty

**College of Education, Human
Performance, and Health**
UNIVERSITY OF SOUTH CAROLINA UPSTATE

If approved by CoEHPH, the Department Chair will complete an official application for an Internship Certificate with the South Carolina Department of Education on behalf of the teacher candidate. A specific school district request and classroom assignment will be necessary prior to submission.

APPENDIX A. REFLECTIVE JOURNAL ASSIGNMENT

One of the requirements of Student Teaching is the reflective journal. As teacher candidates, you will write a weekly reflection to include introspection, feelings, and reactions to happenings of the week in the classroom. The basis for this is the idea that writing is a means of reflection, and that reflection on experience leads to meaningful learning. Such reflection will allow you to isolate positive teaching experiences, to analyze what made them positive, and to repeat them. Likewise, negative teaching experiences will be isolated, analyzed and may be eliminated or avoided in the future. Some types of journal writing are “free form” with few or no stipulations on format or content. However, the reflective journal is a bit more “systematic” in that its format leads one through a series of questions designed to promote description, reflection, and action. The following guidelines (from Posner, 1985; Pultorak, 1983; Symthe, 1989), “shape” the form and contents of the reflective journal.

1. Keep a journal during each practicum and each Student Teaching experience.
2. Write one entry per week in the journal.
3. One copy of this weekly reflection should be emailed to your University Supervisor no later than Saturday by 12:00 noon and one copy should be kept in a notebook.
4. Each entry is composed of three parts:
 - a. *Description* of an experience (What happened? What did I do? What did the students do? What did the cooperating teacher do?)
 - b. *Reflection* upon the experiences (What does it mean? OR How do you view what happened? What informed your decision or interpretation of the meaning?).
 - c. *Decisions, conclusions, or actions* on how subsequent teaching will change as a result of the experience and reflection (How will I teach differently in the future? How can I maintain the positive and avoid the negative?)
5. Each week’s entry should be a description of and reflection upon a critical teaching experience that contributed to the teacher candidate’s growth as an educator.

**College of Education, Human
Performance, and Health**
UNIVERSITY OF SOUTH CAROLINA UPSTATE

A “teaching experience” encompasses all aspects of instruction (preparation, planning, teaching, etc.) as well as all other relationships within the school: teacher- student(s) interaction; teacher-teacher interaction; teacher-administrator interaction; teacher-parent interaction; and teacher-central office personnel interaction.

APPENDIX B. - Substitute Policy

In November 2016, the South Carolina Department of Education issued a Memorandum regarding teacher candidates receiving compensation during the time they are student teaching. Teacher candidates are now allowed to receive compensation during student teaching, which means that the teacher candidate can substitute teach for their cooperating teacher when the cooperating teacher is absent. The teacher candidate must complete the process for becoming a substitute teacher in the district they are student teaching before they are eligible to act as the substitute teacher. The teacher candidate can only act as the substitute teacher for his/her cooperating teacher. The days that the teacher candidate acts as the substitute teacher will not count toward the 65 required days (attendance or instructional) for student teaching. Taking on substitute teaching responsibilities will result in a teacher candidate having to make up days to fulfill the student teaching requirements at the end of their scheduled experience.

Ultimately, the choice to allow teacher candidates to act as substitute teachers is up to school district personnel (superintendents and cooperating administrators). If district personnel or the school's principal do not allow teacher candidates to act as substitute teachers for cooperating teachers, this policy is void.

APPENDIX C. South Carolina Teaching Standards (Expanded ADEPT) 4.0 Rubric

INSTRUCTION				
Standards and Objectives ¹	Exemplary (4)	Proficient (3)	Needs Improvement (2)	Unsatisfactory (1)
	<ul style="list-style-type: none"> All learning objectives and state content standards are explicitly communicated. Sub-objectives are aligned and logically sequenced to the lesson's major objective. Learning objectives are: (a) consistently connected to what students have previously learned, (b) know from life experiences, and (c) integrated with other disciplines. Expectations for each student's performance are clear, demanding, and high. State standards are displayed, referenced throughout the lesson with explanations. There is evidence that most students demonstrate mastery of the objective. 	<ul style="list-style-type: none"> Most learning objectives and state content standards are communicated. Sub-objectives are mostly aligned to the lesson's major objective. Learning objectives are connected to what students have previously learned. Expectations for student performance are clear, demanding and high. State standards are displayed and referenced in the lesson. There is evidence that most students demonstrate mastery of the objective. 	<ul style="list-style-type: none"> Some learning objectives and state content standards are communicated. Sub-objectives are sometimes aligned to the lesson's major objective. Learning objectives are not clearly connected to what students have previously learned. Expectations for student performance are clear. State standards are appropriately displayed There is evidence that some of the students demonstrate mastery of the objective. 	<ul style="list-style-type: none"> Learning objectives and state content standards are not communicated. Sub-objectives are rarely aligned to the lesson's major objective. Learning objectives are rarely connected to what students have previously learned. Expectations for student performance are vague. State standards are not appropriately displayed. There is evidence that few students demonstrate mastery of the objective.
Motivating Students ²	<ul style="list-style-type: none"> The teacher consistently and explicitly organizes the content so that it is personally meaningful, relevant and intellectually engaging to all students. The teacher consistently develops learning experiences where inquiry, curiosity and exploration are valued. The teacher consistently reinforces and rewards effort. 	<ul style="list-style-type: none"> The teacher often organizes the content so that it is personally meaningful, relevant and intellectually engaging to most students. The teacher often develops learning experiences where inquiry, curiosity and exploration are valued. The teacher regularly reinforces and rewards effort. 	<ul style="list-style-type: none"> The teacher sometimes organizes the content so that it is personally meaningful, relevant and engaging to some students. The teacher sometimes develops learning experiences where inquiry, curiosity and exploration are valued. The teacher sometimes reinforces and rewards effort. 	<ul style="list-style-type: none"> The teacher rarely organizes the content so that it is personally meaningful, relevant and engaging to students. The teacher rarely develops learning experiences where inquiry, curiosity and exploration are valued. The teacher rarely reinforces and rewards effort.

PROFESSIONALISM

	Performance Standard	Exemplary (4)	Proficient (3)	Needs Improvement (2)	Unsatisfactory (1)
Growing and Developing Professionally ¹⁶	1. The educator is prompt, prepared, and participates in professional development meetings, bringing student artifacts (student work) when requested.	Always	Often	Sometimes	Rarely
	2. The educator appropriately attempts to implement new learning in the classroom following presentation in professional development meetings.	Always	Often	Sometimes	Rarely
	3. The educator develops and works on a yearly plan for new learning based on analyses of school improvement plans and new goals, self-assessment, and input from the teacher leader and principal observations.	Always	Often	Sometimes	Rarely
	4. The educator selects specific activities, content knowledge, or pedagogical skills to enhance and improve his/her proficiency.	Always	Often	Sometimes	Rarely
	5. The educator makes thoughtful and accurate assessments of his/her lessons' effectiveness as evidenced by the self-reflection after each observation.	Always	Often	Sometimes	Rarely
	6. The educator offers specific actions to improve his/her teaching.	Always	Often	Sometimes	Rarely
	7. The educator accepts responsibilities contributing to school improvement.	Always	Often	Sometimes	Rarely
	8. The educator utilizes student achievement data to address strengths and weaknesses of students and guide instructional decisions.	Always	Often	Sometimes	Rarely
	9. The educator actively supports school activities and events.	Always	Often	Sometimes	Rarely
	10. The educator accepts leadership responsibilities and/or assists in peers contributing to a safe and orderly school environment.	Always	Often	Sometimes	Rarely

APPENDIX D. Steps to Certification

Step 1: Complete your application in the SC Educator Portal

- <https://ed.sc.gov/educators/certification/portal/>
- You completed this application prior to student teaching. This application is active for 3 years.

Step 2: Make sure that your contact information is up to date in the SC Educator Portal. Update your e-mail to a personal account and ensure your mailing address is current.

Step 3: Send your ETS Praxis II and PLT scores to USC Upstate and the South Carolina Department of Education

Step 4: Six weeks after graduation send your transcripts to the SC Department of Education

- Log in to my.sc.edu and confirm that your degree has posted on your Unofficial transcript.

Awarded	Degree Date
Bachelor Science Education	05/02/2023
Curriculum Information	
Primary Degree	
Major	Major and Concentration
Secondary Education	Mathematics

- Once your degree date is posted on your unofficial transcript, request a copy be sent electronically to the SC Department of Education.

Step 5: Upstate sends your recommendation for certification to the SC Department of Education

- Email Ashley Minton(AMINTON@uscupstate.edu) to notify her you passed your Praxis II and PLT exams and sent your transcripts electronically to the SC Department of Education.
- Mrs. Minton will then make sure your recommendation for certification is signed by the Dean and sent to the SC Department of Education.
- It can take up to 8 weeks for your paperwork to be processed by the SC Department of Education.
- Check the SC Educator Portal regularly.

Step 6: Once your initial certification has posted in the Educator Portal, you can request add-on certification areas.

APPENDIX E Contact List

Student Teachers

- For questions about assignments, placement, concerns, absences, and expectations contact Dr. Amy Stevenson (as314@uscupstate.edu).
- For questions about applying for Student Teaching, background check status, TB test status, or clearance with the State Department, contact Kelly Crow (kcrow2@uscupstate.edu)
- For questions about LiveText, contact (TBA).
- For questions about the status of your Certification after graduation, contact Ashley Minton (aminton@uscupstate.edu).

Cooperating Teachers

- For questions about assignments, placement, concerns, absences, and expectations contact Dr. Amy Stevenson (as314@uscupstate.edu).
- For questions about your letter for points towards re-certification, contact Kelly Crow (kcrow2@uscupstate.edu).
- For questions about LiveText, contact (TBA)
- For questions regarding using your voucher towards classes at USC Upstate, contact Alyssa Dickerson-Moody (dickersa@uscupstate.edu).

University Supervisors

- For questions about Livetext, contact (TBA).
- For questions regarding payment, contact (TBA).
- For all other questions, contact Dr. Amy Stevenson (as314@uscupstate.edu).

APPENDIX F. Internship Information Sheet

Internship Information Sheet

An eligible teacher candidate is defined at the University of South Carolina Upstate as having:

- The specific district request and classroom assignment
- Passed all Praxis and Praxis II exams required for teaching
- A GPA of 3.5 or greater from Program of Study (with exception to the Reach Up! pathway)
- An Exemplary or Acceptable rating in all dispositions assessments conducted in field experiences
- The recommendation of the Department Chair in consultation with program faculty

Details

1. Be sure to check the internship requirements before applying.
2. Most students will be enrolled in Field Experience II when applying for the Internship Certificate.
3. If selected for an internship position:
 - It will be a paid position with the district that hires you. At least one interview is likely.
 - You will be teaching full-time while while student teaching.
 - You will still pay regular tuition to USC Upstate.
 - You will still register to take the Student Teaching course and Pull-Back course.
4. Submission of an application will not ensure that a candidate is hired.
5. Students should not contact districts/principals prior to getting clearance. We have forms to streamline the process.
6. Notice that the first application to submit is internal. If a candidate is approved at that step, then the official application for an Internship Certificate will be required by the SCDE. The deadlines for that are December 1st for a spring internship and July 15th for a fall internship.

7. “The Internship certificate request with the SCDE must be initiated by the school district and partnering institution of higher education. The candidate must have a complete student teaching application with fee, cleared background reports, and test scores on file.”
(The South Carolina Department of Education, 2018)

Process Simplified

1. Take and pass the appropriate Praxis II and PLT exams. Be sure to have USC Upstate named as a score recipient.
2. Complete and submit an internal application to show interest in pursuing the internship Certificate. Access the Internship internal application here [Student Internship Application - Formstack](#).
3. The Department Chair and Director of Field Experiences will review the application and schedule a meeting to discuss next steps and answer questions if all eligibility requirements have been met.
4. Once the meeting has been conducted, the Department Chair will contact the student’s program faculty to receive recommendations on behalf of the student.
5. If the student is approved for the Internship Certificate, the Director of Field Experiences will work with the student and a partnering district to facilitate the process of hiring.

Reminder: There is no guarantee of an internship, even if requirements have been met at USC Upstate. Each candidate will need to interview as a potential new employee with the hiring district and an appropriate job opening must be available.

APPENDIX G. Absence Request Form for Student Teachers (link provided in Blackboard)

Note: Submission does not ensure approval.

Absence Request Form for Student Teachers

This form is to be submitted for scheduled events. One would not submit this form for an unexpected illness or personal emergency, in which case the procedures outlined in the Field Experience Handbook (contacting the cooperating teacher, school secretary, and university supervisor and making the time up at the end of the placement) should be implemented. Please note that this form should be used for each day that is being requested to be absent.
